

This section would ensure that recipients of Job Corps training do not face undue disruptions due to the COVID-19 pandemic. This section would clarify that, during the COVID-19 health emergency, drug testing certification is required for enrollees participating on-site at Job Corps centers or returning on-site after distance learning. It also expands the age qualification during the health emergency so that those who were unable to participate in their final year they qualify are not prevented from receiving Job Corps training.
