

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
Mayo Clinic <i>Rochester, MN</i>	Funds will be used to implement video telehealth services and remote patient monitoring across over 50 communities in Iowa, Minnesota and Wisconsin to minimize exposure and slow further spread of the COVID-19 virus while maintaining patient care and monitoring standards.	\$1,000,000
Novant Health Consortium <i>Winston-Salem, NC</i>	Funds will be used for monitors, cameras, connected devices, phones and other telehealth equipment and software that will be deployed to multiple hospital sites for telehealth intensive care units, remote treatment and monitoring of COVID-19 patients in isolation and quarantine, video consultations and other telemedicine applications.	\$1,000,000
NYP Brooklyn Methodist Hospital <i>Brooklyn, NY</i>	Funds will be used for telemedicine carts, connected devices and remote monitoring devices to provide video consultations, remote treatment and other home monitoring capabilities and follow-up for patients with COVID-19.	\$1,000,000
Ochsner Clinic Foundation <i>New Orleans, LA</i>	Funds will be used to provide telehealth services and devices to high-risk patients and vulnerable populations in Louisiana and Mississippi, to treat COVID-19 patients and to slow the spread of the virus to others.	\$1,000,000
Yale New Haven Hospital <i>New Haven, CT</i>	Funds will be used to purchase telehealth equipment for surgical and intensive care visits to minimize exposure to the COVID-19 virus during essential medical procedures.	\$1,000,000
Kennedy Krieger Children's Hospital, Inc. <i>Baltimore, MD</i>	Funds will be used to expand video telehealth and remote patient monitoring services to continue providing care to vulnerable and high-risk children, adolescents and adults with disabilities.	\$994,950
Genesis PrimeCare <i>Marshall, TX</i>	Funds will be used to provide comprehensive primary health care, pediatric care and behavioral health services through video and voice telehealth consults, and Internet-connected remote patient monitoring and treatment for low-income and underserved patients.	\$990,716
NYU Langone Health <i>New York, NY</i>	Funds will be used to employ telehealth in operating rooms and conference room spaces that have been converted into ICUs, so that doctors and health care providers can carefully monitor ICU patients from separate floors. This will maximize the finite number of available ICU specialists, reduce exposure to the coronavirus and maximize the limited supply of personal protective equipment.	\$983,772
Lincoln County Primary Care Center <i>Hamlin, WV</i>	Funds will be used to purchase telehealth carts, network hardware, software upgrades and diagnostic equipment to provide patients with greater access to care through high-quality video and voice consultations at 18 rural sites in West Virginia. This will allow providers to conserve PPE and limit the number of staff having direct patient contact during COVID-19 testing.	\$967,304

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
Banyan Community Health Center, Inc. <i>Coral Gables, FL</i>	Funds will be used to provide telehealth services to approximately 2,000 low-income and high-risk patients in 24 Medically Underserved Areas in Miami-Dade and Broward Counties.	\$958,270
Navajo Nation Department of Health <i>Window Rock, AZ</i>	Funds will be used to provide home health care and remote monitoring services throughout the Navajo Nation to patients who are isolated and under shelter-in-place orders, including low-income, elderly, vulnerable and high-risk patients.	\$954,990
MA FQHC Telehealth Consortium <i>Boston, MA</i>	Funds will be used at 28 community health centers to provide patients with access to telehealth via phone calls and videoconferencing, use of connected thermometers and pulse oximeters for remote monitoring of COVID-19 patients and connected blood pressure monitors for patients with hypertension.	\$939,627
Bridgeport Hospital <i>Bridgeport, CT</i>	Funds will be used to purchase medical carts and other telehealth equipment for intensive care to treat patients with chronic and acute illness in a manner that mitigates possible exposure to COVID-19.	\$938,960
Children's National Hospital <i>Washington, D.C.</i>	Funds will be used to purchase telemedicine carts, tablets, other connected devices, a telehealth platform and other telehealth equipment to treat seriously ill COVID-19 patients up to 30 years old and to continue providing evaluations, diagnoses and care to patients with other acute or chronic health needs via telemedicine.	\$928,183
Florida Community Health Centers <i>West Palm Beach, FL</i>	Funds will be used to purchase telehealth kiosks, connected devices and remote monitoring equipment for video consultation, remote treatment, remote monitoring and a platform for patients to participate in routine follow-up visits, off-site care management services and other services during the COVID-19 pandemic.	\$884,116
Tanner Medical Center, Inc. <i>Carrollton, GA</i>	Funds will be used to implement new telehealth services and expand existing telehealth services to treat inpatients and to provide remote treatment to patients with chronic conditions, behavioral health issues and other medical conditions, including patients who are vulnerable, underserved, low-income and at high risk for COVID-19.	\$879,520
Urban Health Plan <i>Bronx, NY</i>	Funds will be used to purchase monitors and other telehealth equipment to deliver primary and specialty medical care using digital technology for patient assessment, diagnosis, evaluation, treatment, monitoring, prevention and education to address illness or injury.	\$873,202
Mount Sinai Hospital <i>New York, NY</i>	Funds will be used to provide remote patient monitoring services to pediatric patients suffering from at least one pre-existing, chronic condition, such as asthma, cardiac disease, diabetes or immunocompromise, whose conditions need to be monitored on an ongoing basis to ensure they remain in reasonable health.	\$862,950

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
Children's Hospital Colorado <i>Aurora, CO</i>	Funds will be used at 14 locations throughout Colorado to implement telehealth services to provide continuity of medical care for children, adolescents and young adults with complex pediatric illnesses in the Rocky Mountain region.	\$807,090
Community Health Care <i>Davenport, IA</i>	Funds will be used for computers, laptops, telemedicine carts, remote diagnostic and monitoring equipment, and a telehealth platform to safely test for COVID-19. Because many COVID-19 patients have underlying health conditions, telemedicine will also be used to provide primary care services for patients needing routine follow-up and chronic disease management.	\$799,305
Community Health Centers of Burlington <i>Burlington, VT</i>	Funds will be used at eight sites to provide telehealth visits through the use of connected devices for community residents who are primarily low-income and face barriers to accessing comprehensive primary care, psychiatry, behavioral health and dental care services.	\$782,903
NYU Grossman School of Medicine <i>New York, NY</i>	Funds will be used to expand telehealth services so that high-risk, elderly and vulnerable patients can receive complex care and chronic disease management from home.	\$772,687
Intermountain Health Care <i>Murray, UT</i>	Funds will be used to provide remote visits and consultations to patients in Utah, Idaho, Wyoming, Montana, Arizona and Nevada to reduce potential exposure to COVID-19 patients in facilities, free up hospital and clinic spaces for treatment of COVID-19 patients and reduce the potential transmission of COVID-19 to health care providers from patients who are asymptomatic but infected.	\$772,680
Mattapan Community Health Center <i>Mattapan, MA</i>	Funds will be used for connected home monitoring devices and other equipment to enable the provision of remote medical services for patients with chronic conditions and for the monitoring of patients who have tested positive for COVID-19 and are able to self-isolate at home.	\$755,468
Hudson River HealthCare, Inc. <i>Peekskill, NY</i>	Funding will be used for telehealth services to expand frontline COVID-19 testing and treatment programs that serve a large volume of low-income, uninsured and/or underinsured patients throughout southeastern New York State, including the Hudson Valley, New York City and Long Island.	\$753,367
Health Partners of Western Ohio <i>Lima, OH</i>	Funding will be used to deploy telemedicine carts to 71 community locations where low-income patients can receive remote medical care.	\$737,098
River Edge Behavioral Health <i>Macon, GA</i>	Funds will be used for telehealth services to care for the most clinically and financially challenged individuals with behavioral health conditions or developmental disabilities, including mental illnesses, substance abuse disorders, co-occurring behavioral health disorders and autism, thereby freeing up funds to cover telehealth costs to serve individuals with COVID-19.	\$735,365

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
Southeast Alabama Rural Health Associates <i>Troy, AL</i>	Funds will be used to expand telehealth services across 10 community health centers, providing video and voice consults and remote treatment to patients for ongoing primary health care services and for COVID-19 screening, testing and treatment.	\$732,827
The Institute for Family Health <i>New Paltz, NY</i>	Funds will be used by 16 community health centers, including group homes for the developmentally disabled, to provide telehealth visits for primary medical and preventive care, mental health care and care management services for patients of all ages.	\$729,118
Grady Memorial Hospital <i>Atlanta, GA</i>	Funds will be used for telehealth video visits, virtual check-ins, remote patient monitoring and e-visits to patients' hospital rooms, so that the hospital can continue providing high-quality patient care, keep patients safe in their homes and reduce the use of personal protective equipment during the COVID-19 pandemic.	\$727,747
Cincinnati Children's Hospital <i>Cincinnati, OH</i>	Funds will be used to provide telehealth services to the highest-risk pediatric patients with complex health care needs, including tracheostomy and ventilator dependence, and gastrostomy and tube feeding dependence, to limit their potential exposure to COVID-19 by keeping them out of the hospital and safely at home. This will improve patients' prognoses and free up resources to care for children with COVID-19.	\$719,098
Christiana Care Health Services <i>Newark, DE</i>	Funds will be used to provide telehealth and remote patient monitoring services to low-income, vulnerable patients, primarily in New Castle County.	\$714,322
Advance Community Health <i>Raleigh, NC</i>	Funds will be used to develop an integrated telemedicine system and to purchase remote monitoring devices and networking equipment for COVID-19 testing, drive-up and curbside pharmacy services and to provide remote monitoring to address the risk factors that make vulnerable patients more susceptible to COVID-19.	\$690,671
Holyoke Health Center, Inc. <i>Holyoke, MA</i>	Funds will be used to provide high-risk and vulnerable patients with HIV infectious disease services and management, substance abuse disorder program treatment and adherence counseling, nutrition and medication management and oral health services, thereby reserving staff, equipment and other onsite supplies specifically for patients with COVID-19 symptoms and conditions.	\$668,335
Anne Arundel Medical Center, Inc. <i>Annapolis, MD</i>	Funds will be used to provide video telehealth services to diagnose and treat COVID-19 patients across 11 Medically Underserved Areas throughout Central Maryland. Funds will also be used to support remote patient visits and monitoring to protect high-risk patients who must be triaged outside the hospital or as part of an early-discharge program for non-COVID-19 patients to preserve hospital capacity.	\$664,606

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
University of Michigan Hospital <i>Ann Arbor, MI</i>	Funds will be used to implement remote patient monitoring for high-risk COVID-19 patients to reduce the need for hospital admissions and to expand video visit capacity so that patients with and without COVID-19 can receive medical care at home during the pandemic.	\$649,000
Christ Health Center <i>Birmingham, AL</i>	Funds will be used for laptop computers, a telehealth platform and other telehealth equipment to expand Christ Health Center's capacity for telehealth and to support its move to a full telehealth model while the COVID-19 crisis persists and to implement telemedicine and teleconferencing solutions for patient care and education.	\$631,612
Wright Center Medical Group <i>Scranton, PA</i>	Funds will be used to deploy in-home patient monitoring kits and expand video telehealth services to provide remote care to high-risk and vulnerable patient populations, including older adults, homeless individuals and individuals in rural areas.	\$629,051
McLaren Health Care Corporation <i>Grand Blanc, MI</i>	Funds will be used at 12 health care provider sites to enhance telehealth connectivity across Michigan in order to provide safe, high-quality care to patients, including high-risk and vulnerable patients at the Karmanos Cancer Center, and to decrease the exposure to all health care providers using multiple telehealth platforms and devices.	\$626,328
BronxCare Health System <i>Bronx, NY</i>	Funds will be used to purchase connected devices, video equipment and network upgrades to provide voice and video patient consultations, as well as remote patient diagnosis, treatment and monitoring in one of the areas hardest hit by the COVID-19 crisis.	\$537,797
Greater Baden Medical Services, Inc. <i>Brandywine, MD</i>	Funds will be used to expand video telehealth services and remote patient monitoring to continue to provide care to low-income patients outside of emergency rooms overwhelmed by COVID-19 patients.	\$537,747
Cooper University Health <i>Camden, NJ</i>	Funds will be used to support the purchase of a telehealth platform and video and telemedicine equipment to evaluate patients with symptoms of COVID-19 and allow health care providers to determine patient treatment in a safe setting.	\$506,284
Delaware Valley Community Health, Inc. <i>Philadelphia, PA</i>	Funds will be used to provide telehealth services to patients who are predominantly vulnerable and at high risk for COVID-19.	\$504,880
Helio Health <i>Syracuse, NY</i>	Funds will be used for laptops, tablets and other telehealth equipment needed to conduct remote monitoring and treatment of patients with COVID-19, as well as voice and video consultations to ensure continued care for patients while protecting health care workers.	\$504,034

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
Marietta Memorial Hospital <i>Marietta, OH</i>	Funds will be used for telehealth carts, connected devices and remote monitoring equipment to safely diagnose and treat geriatric patients by having crisis staff available via telemedicine to support and treat patients in their own environment during the COVID-19 pandemic.	\$473,159
St. Joseph's Hospital and Medical Center <i>Paterson, NJ</i>	Funds will be used to establish a telehealth platform and purchase monitors, cameras, laptops and other connected devices for remote treatment, monitoring and patient consultations at several hospitals in New Jersey for patients with COVID-19.	\$472,059
Spectrum Human Services <i>Orchard Park, NY</i>	Funds will be used for laptops and other connected devices necessary to provide urgent medical care remotely, thus limiting unnecessary hospital visits and reserving hospital-based services for patients needing heightened levels of care during the COVID-19 pandemic.	\$463,866
Greenwich Hospital <i>Greenwich, CT</i>	Funds will be used to purchase telehealth carts and other telehealth equipment to deploy telehealth intensive care capability to continuously monitor patients while minimizing direct patient contact and to conduct remote patient screening and patient education regarding COVID-19.	\$462,797
Chinatown Service Center, a Federally Qualified Health Center <i>Los Angeles, Monterey Park, San Gabriel, and Alhambra, CA</i>	Funds will be used to implement telehealth to provide primary care, mental health care and dental services to low-income and vulnerable patient populations during the COVID-19 pandemic.	\$460,572
The Children's Home of Cincinnati <i>Cincinnati, OH</i>	Funds will be used to expand video telehealth consultations and remote monitoring programs for a low-income and vulnerable patient population throughout the greater Cincinnati area that has been displaced by the COVID-19 pandemic.	\$456,871
El Rio Santa Cruz Neighborhood Health Center, Inc. (d/b/a El Rio Health) <i>Tucson, AZ</i>	Funds will be used at 12 sites to provide video telehealth services and remote patient monitoring of chronic diseases to ensure continued care for high-risk patients during the COVID-19 pandemic.	\$444,462
Health Access for All, Inc. (d/b/a Angeles Community Health Center) <i>Los Angeles, CA</i>	Funds will be used to implement remote patient monitoring to care for patients who are most susceptible to COVID-19, including chronically ill and elderly patients.	\$442,376

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
Goodwill NYNJ Clinic <i>New York, NY</i>	Funds will be used for connected devices, cellular data plans and hotspots to allow patients and providers to interact via voice and video to avoid the need for in-person meetings and limit contact between patients and health care providers during the COVID-19 pandemic.	\$435,879
Fair Haven Community Health Clinic <i>New Haven, CT</i>	Funds will be used to provide video consults and management of chronic conditions through patient-based, Internet-connected remote monitoring for a vulnerable patient population with a high risk for COVID-19.	\$430,438
Preferred Behavioral Health Group <i>Lakewood, NJ</i>	Funds will be used to purchase laptops, phones and remote access software to offer video and voice consultations and to conduct remote monitoring of patients under treatment for mental health and substance use issues during the COVID-19 pandemic.	\$420,675
Brazos Valley Community Action Agency, Inc. (d/b/a HealthPoint) <i>College Station, TX</i>	Funds will be used to provide remote patient monitoring devices and services for a rural, vulnerable, high-risk patient population.	\$415,621
Country Doctor Community Health Centers <i>Seattle, WA</i>	Funds will be used to serve a low-income, high-risk and vulnerable patient population by building telehealth capacity and online screening functionality to triage COVID-19 patients remotely, while also leveraging telehealth to treat patients with chronic conditions like diabetes, hypertension, pulmonary disorders and substance abuse disorders.	\$392,770
Lawrence Memorial Hospital <i>New London, CT</i>	Funds will be used to purchase telehealth carts and other remote diagnostic equipment for patient screening to reduce in-person visits during the COVID-19 pandemic and to provide high-priority intensive care via telehealth.	\$384,024
St. John's Well Child and Family Center <i>Los Angeles, CA</i>	Funds will be used to treat 21,000 patients in South Los Angeles and the City of Compton through remote patient monitoring, video consults and voice consults.	\$382,332
Legacy Emanuel Hospital and Health Center <i>Portland, OR</i>	Funds will be used for telemedicine carts, tablets and remote diagnostic equipment to treat and monitor hospitalized patients in intensive care units and emergency departments, and to allow specialty and sub-specialty providers to safely treat and monitor patients at multiple facilities via telehealth.	\$368,912
Metro Health-University of Michigan Health <i>Wyoming, MI</i>	Funds will be used to purchase laptops and tablets, network upgrades, telehealth software and licenses to provide primary and specialty care using video and voice consultations as well as remote monitoring to treat patients during the COVID-19 crisis.	\$356,597

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
Ampala Health <i>Yuba City, CA</i>	Funds will be used to expand existing video telehealth services using connected devices at COVID-19 testing centers to limit both patient and provider exposure to the virus.	\$332,079
Mount Sinai Health System <i>New York, NY</i>	Funds will be used to provide telehealth devices and services to geriatric and palliative patients who are at high risk for COVID-19 in New York City.	\$312,500
Avenue 360 Health and Wellness <i>Houston, TX</i>	Funds will be used to provide video telemedicine services to low-income and vulnerable patients at risk for COVID-19 through mobile telehealth sites at public housing locations in the city of Houston and throughout Harris County, Texas.	\$297,975
Chicago Family Health Center <i>Chicago, IL</i>	Funds will be used to implement a telemedicine/telehealth platform to treat patients without COVID-19 symptoms or conditions, which will improve patient flow, decrease cycle time, reduce financial costs and free up staff time so that limited resources may be devoted to patients who require face-to-face visits, while reducing the risk of exposure to COVID-19.	\$292,000
Wirt County Health Services Association, Inc. <i>Elizabeth, WV</i>	Funds will be used to provide remote health services, including primary care, behavioral health and dental services, to patients who have tested positive for COVID-19 in Wirt and Jackson Counties, West Virginia, and Meigs County, Ohio, to minimize the spread of the virus and to protect high-risk, vulnerable populations from contracting the virus.	\$274,432
Franklin County Memorial Hospital <i>Meadville, MS</i>	Funds will be used for telemedicine carts, servers and additional equipment needed to remotely diagnose, treat and monitor patients who are unable to receive care on-site as a result of the COVID-19 pandemic.	\$262,934
Knoxville Adult Center <i>Knoxville, TN</i>	Funds will be used for computers, laptops and other connected devices to provide mental health, addiction, social services and victim services via telehealth at 17 sites throughout East Tennessee during the COVID-19 pandemic.	\$249,773
Neighborhood Health Care, Inc. <i>Cleveland, OH</i>	Funds will be used to provide telemedicine, connected devices and remote patient monitoring to patients and families impacted by COVID-19 in Cleveland's West Side neighborhoods. These services will be targeted at low-income patients with chronic conditions.	\$244,282
Wilmington Community Clinic <i>Los Angeles and Wilmington, CA</i>	Funds will be used to provide remote patient monitoring, video and voice telehealth consultations to low-income and vulnerable patient populations in Los Angeles County, which has been heavily impacted by the COVID-19 pandemic.	\$232,291

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
St. Joseph Orphanage <i>Cincinnati, OH</i>	Funds will be used for connected devices and video conferencing equipment to provide critical telehealth services, such as same-day emergent appointments and immediate access to psychiatric services, remotely to allow clients and families to remain safely at home during the COVID-19 pandemic.	\$228,619
Windrose Health Network <i>Greenwood, IN</i>	Funds will be used to purchase laptops, telehealth equipment and other network improvements to enable distanced patient treatment for acute care appointments and medically appropriate chronic disease follow-up appointments to avoid spread of the COVID-19 virus.	\$223,720
Pomona Community Health Center <i>Pomona, CA</i>	Funds will be used to implement video and telephonic visits to provide medical, dental and behavioral health services to COVID-19 high-risk and vulnerable community members who are either afraid to access services due to the risk of being infected or who have been advised to stay home due to multiple at-risk health conditions.	\$209,933
Matagorda Episcopal Health Outreach <i>Bay City, TX</i>	Funds will be used to provide telehealth services to treat patients with COVID-19 and other infectious diseases, including patients needing psychiatric services and other patients with acute and chronic conditions.	\$193,038
UPMC Children's Hospital of Pittsburgh <i>Pittsburgh, PA</i>	Funds will be used to provide telehealth services to children who have received organ transplants and are thus immune compromised and at high risk for COVID-19.	\$192,500
Southwest General Health Center <i>Middleburg Heights, OH</i>	Funds will be used for connected devices, laptops and other equipment needed to conduct remote patient monitoring, medical voice and video consultations and inpatient care to prevent the spread of COVID-19.	\$190,150
Jefferson Parish Community Health Care Centers <i>Avondale, LA</i>	Funds will be used for computers and monitoring devices to provide telehealth services in hard-to-reach communities in the greater New Orleans area, including remote monitoring services for chronically ill patients at high risk for COVID-19.	\$188,500
Bee Busy Wellness Center <i>Houston, TX</i>	Funds will be used to purchase video monitors and connected devices for primary and preventative medical services, including remote monitoring, diagnosis and treatment, to COVID-19 vulnerable populations in Houston and surrounding areas.	\$182,854
Yakima Neighborhood Health Services <i>Yakima, WA</i>	Funds will be used to provide video telehealth services and remote patient consults to low-income patients during the COVID-19 pandemic.	\$177,945
OLV Human Services <i>Lackawanna, NY</i>	Funds will be used to support the cost of connected devices and telemedicine solutions used to remotely treat COVID-19 vulnerable populations using video telehealth applications throughout Erie and Niagara counties.	\$174,840

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
Aspire Health Partners <i>Orlando, FL</i>	Funds will be used to purchase connected devices, a patient safety platform and network equipment upgrades to support the increased need for telehealth services as a result of the COVID-19 pandemic.	\$173,037
White Plains Hospital Medical Center <i>White Plains, NY</i>	Funds will be used to deploy telehealth services to treat high-risk and vulnerable patients with pre-existing pulmonary conditions and to implement telehealth services to address the facility's surging patient population, while minimizing the risk of COVID-19 exposure for staff and patients without COVID-19.	\$165,832
Capsstone Rural Health Center <i>Parrish, AL</i>	Funds will be used to purchase telemedicine carts, computers and diagnostic equipment to remotely treat patients during the COVID-19 pandemic.	\$165,478
Marin City Health and Wellness Center <i>Marin City, CA</i>	Funds will be used for computers, tablets, connected devices and remote monitoring equipment to maintain primary care services for vulnerable patients in a safe environment, maintain the safety of frontline health care workers and allow resources to be dedicated toward the treatment and testing of COVID-19 patients.	\$162,207
Via Care Community Health Center, a Federally Qualified Health Center <i>Los Angeles, CA</i>	Funds will be used to implement telehealth services to conduct video visits to serve the applicant's low-income and COVID-19 vulnerable patient population.	\$157,123
Community Health Center of Lubbock, Inc. <i>Lubbock, TX</i>	Funds will be used to expand telehealth services to mitigate and limit patient and staff exposure to COVID-19-positive patients who are receiving care, while continuing to serve vulnerable patients, including the elderly and chronically ill.	\$143,584
Ritter Center <i>San Rafael, CA</i>	Funds will be used for laptops, connected devices, smart monitors and connected diagnostic equipment for primary health care, behavioral health psychotherapy, specialty care coordination and other care and treatment of COVID-19 vulnerable patients through telehealth.	\$133,445
Garfield Health Center <i>Monterey Park, CA</i>	Funds will be used to deliver remote care for low-income, vulnerable patients with underlying and/or chronic health conditions that are at high risk for COVID-19 and to triage COVID-19 patients in the San Gabriel Valley.	\$130,217
Lynn County Hospital District <i>Tahoka, TX</i>	Funds will be used for connected devices, a telehealth platform, portable teleclinic briefcases and other telehealth equipment to decrease patients' and health care providers' exposure to the COVID-19 virus, reduce routine patient hospital visits, allow for continued patient care, decrease patient traffic and health care worker caseloads and conserve PPE.	\$127,980

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
New York Psychotherapy and Counseling Center <i>Jamaica, NY</i>	Funds will be used to implement telehealth to serve low-income and at-risk patients struggling with mental health issues in order to reduce 911 calls and emergency room visits and expedite post-hospital discharge to free up space in New York City's hospital system.	\$126,799
HIV/AIDS Alliance for Region 2 (d/b/a Open Health Care Clinic) <i>Baton Rouge, LA</i>	Funds will be used to expand telehealth and remote patient monitoring capabilities to treat low-income, vulnerable patients.	\$116,049
Augusta University Medical Center <i>Augusta, GA</i>	Funds will be used to expand an ultraportable ultrasound program to differentiate and screen COVID-19 patients for different types of respiratory diseases prior to hospital admittance.	\$113,744
South Plans Rural Health Services, Inc. <i>Levelland, TX</i>	Funds will be used to expand telehealth services to provide continued care to COVID-19 patients as well as vulnerable, low-income, uninsured and under-insured patients.	\$109,365
Blackstone Valley Community Health Care <i>Pawtucket, RI</i>	Funds will be used for laptops and other telehealth equipment used to treat patients remotely so that health care providers and their staff can minimize contact with patients and patients can receive treatment from their homes.	\$108,306
The Transition House <i>St. Cloud, FL</i>	Funds will be used to purchase computers, tablets and other equipment to help remotely treat patients with substance abuse and mental health problems during the COVID-19 crisis.	\$106,625
CommuniHealth Services Bastrop Family Practice <i>Bastrop, LA</i>	Funds will be used for laptops and connected medical devices to enable the provision of telehealth treatment for patients with COVID-19, as well as chronic disease management, mental health counseling, medication management and other basic acute services.	\$102,016
Parker Jewish Institute for Health Care and Rehabilitation <i>New Hyde Park, NY</i>	Funds will be used for telehealth services and connected devices, including remote monitoring devices, to care for the elderly and chronically ill in a 527-bed skilled nursing facility and rehabilitation center specializing in the care of older adults.	\$97,965
Loudoun Community Health Center T/A Health Works for Northern Virginia <i>Leesburg, VA</i>	Funds will be used to expand video telehealth services to identify COVID-19 patients remotely and provide remote patient care.	\$93,380
Eprine Community Services <i>Brooklyn, NY</i>	Funds will be used to purchase connected devices, laptops and other telehealth equipment to ensure patient access to care during the COVID-19 pandemic by expanding the use of telehealth, including telephone interaction, video-based evaluation and management health services.	\$86,386

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
Lancaster Health Center <i>Lancaster, PA</i>	Funds will be used to expand telehealth capacity to screen and treat COVID-19 patients and manage care for patients at risk of severe complications if exposed to COVID-19, including migrant patient populations with high poverty rates and older patients with pre-existing conditions.	\$75,710
Impact Family Counseling <i>Birmingham, AL</i>	Funds will be used to purchase connected devices needed to provide telehealth and video health services to treat mental health disorders during the COVID-19 pandemic.	\$75,000
East Alabama Medical Center <i>Opelika, AL</i>	Funds will be used for connected devices and telehealth software to care for patients with infectious conditions or significant comorbidities using telehealth.	\$69,909
Saratoga Hospital Consortium <i>Saratoga Springs, NY</i>	Funds will be used for connected devices, remote diagnosis and monitoring equipment and other telehealth equipment to treat patients infected with COVID-19, patients with symptoms of COVID-19 and patients with other chronic medical conditions.	\$61,515
Greene County General Hospital <i>Linton, IN</i>	Funds will be used to expand mobile telehealth capacity to ensure continued care to patients, including senior patients, who have been displaced by the emergency COVID-19 response within the applicant's current facilities.	\$60,480
North Suffolk Mental Health Association <i>Chelsea, MA</i>	Funds will be used for laptops, tablets and other connected devices to provide telehealth services to patients throughout an area with the highest prevalence of COVID-19 infections in Massachusetts and to ensure the highest diagnostic accuracy, safety assessment and treatment planning.	\$56,786
Linn County Department of Health Services <i>Albany, OR</i>	Funds will be used to implement telehealth services to provide medical services, mental health services and maternal health services to the applicant's community, a third of which lives in rural and remote areas.	\$56,332
Valley-Wide Health Systems, Inc. <i>Alamosa, CO</i>	Funds will be used to implement video telehealth services to provide virtual health visits for COVID-19 screening and primary medical care for vulnerable low-income and elderly patients.	\$46,437
Community Service, Inc. <i>Morrilton, AK</i>	Funds will be used to purchase laptops, connected devices, telehealth kiosks and other equipment for remote treatment of Community Service Inc.'s youth patient population and for distanced office visits during the COVID-19 pandemic.	\$44,949
Heritage Clinic and Community Assistance Program for Seniors <i>Pasadena, CA</i>	Funds will be used for telehealth services and devices needed to treat underserved, older adults in Los Angeles County with mental health issues, many of whom are low-income, homeless and especially vulnerable during the COVID-19 outbreak.	\$41,457

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
Spectrum Health Services, Inc. <i>Philadelphia, PA</i>	Funds will be used to implement telehealth services to allow providers to continue to care for the most impoverished patient base in Philadelphia.	\$40,417
Greater Elgin Family Care Center <i>Elgin, IL</i>	Funds will be used to purchase laptops to expand capacity for virtual visits for a wide variety of medical services to limit the spread of COVID-19.	\$39,639
Behavioral Health Services North <i>Plattsburgh, NY</i>	Funds will be used for connected devices, monitors and software licenses to provide therapy, medication management, health monitoring and rehabilitation services via remote patient monitoring and telehealth to patients at risk for COVID-19.	\$39,181
Hunterdon Drug Awareness <i>Flemington, NJ</i>	Funds will be used to purchase computers, laptops, connected devices, telehealth equipment and software licenses for remote mental health, substance abuse and psychiatric treatment during the COVID-19 pandemic.	\$37,571
Community Healing Centers <i>Kalamazoo, MI</i>	Funds will be used to purchase connected devices to provide substance abuse and mental health treatment via remote video sessions for children and adults during the COVID-19 pandemic.	\$36,673
Grace Medical Home <i>Orlando, FL</i>	Funds will be used for connected devices and telecommunications services to expand the use of telehealth services for medical care to low-income, uninsured patients during the COVID-19 pandemic.	\$34,732
Parker Health Group <i>Somerset, NJ</i>	Funds will be used to provide physical, occupational and speech therapy through telehealth for elderly members of the community.	\$28,838
Counseling Center of Wayne and Holmes Counties <i>Wooster, OH</i>	Funds will be used for a telehealth platform and related equipment to remotely treat patients suffering from major mental illnesses such as schizophrenia, depression, anxiety, bipolar disorders and substance abuse to prevent the spread of COVID-19.	\$28,270
Opportunities Industrialization Center, Inc. (d/b/a OIC Family Medical Center) <i>Rocky Mount, NC</i>	Funds will be used to expand an existing remote patient care program by providing connected devices to patients infected with COVID-19 or high-risk patients suffering from chronic conditions.	\$27,468
Jewish Family and Children's Services <i>Tucson, AZ</i>	Funds will be used to provide mental health telehealth services to individuals suffering from significant forms of mental health disorders, including at-risk, low-income, older adults and individuals with disabilities, to prevent social isolation, depression, anxiety and other stress due to COVID-19.	\$27,320
Service Program for Older People, Inc. <i>New York, NY</i>	Funds will be used to implement telehealth services to provide comprehensive mental health services to adults age 55 and older who are at high risk for COVID-19 due to age, medical frailty and isolation and in order to avert unnecessary emergency room visits.	\$26,180

Selected Telehealth Program Participants		
Participant	Program Description	Amount Awarded
Rutgers Community Health Center <i>Newark, NJ</i>	Funds will be used to provide remote medical care and telepsychiatry to patients living with HIV/AIDS; remote primary care to pediatric, adult and geriatric patients; and remote treatment and Internet-connected personal safety devices to high-risk patients during the COVID-19 pandemic.	\$21,434
Community Teaching Homes, Inc. <i>Toledo, OH</i>	Funds will be used to provide the full continuum of behavioral health services through telehealth connections to children and families vulnerable to COVID-19, with a focus on youths involved with the child welfare, juvenile justice and developmental disabilities systems.	\$20,761
Foundation Behavioral Health Services <i>Celina, OH</i>	Funds will be used to purchase connected devices and data service upgrades so behavioral health and substance abuse treatment can be provided remotely during the COVID-19 pandemic.	\$19,965
Jewish Family Service of the Desert <i>Palm Springs, CA</i>	Funds will be used to provide mental health telehealth services and counseling sessions to address symptoms of mental health disorders and reduce mental health challenges caused by the COVID-19 pandemic.	\$19,636
Reliance Health, Inc. <i>Norwich, CT</i>	Funds will be used for telehealth services and devices to continue contact with individuals who have chronic and persistent mental health diagnoses and are at high risk for COVID-19.	18,601
